# The Finest Surfaces

**Redefining the art and craft of the innovative Lush and Lush Plus finishes from the house of FLAZ that artistically amalgamates the best of its multiple finishes into a singular ceramic marvel that is exceptional to sight and touch.**

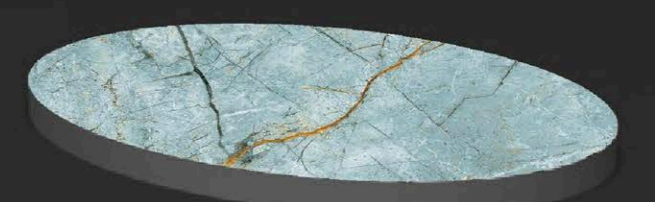

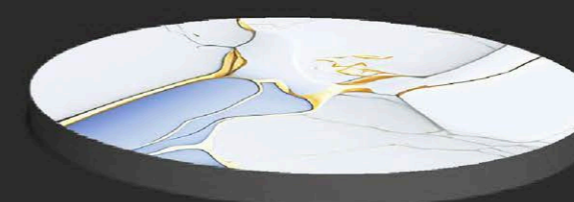

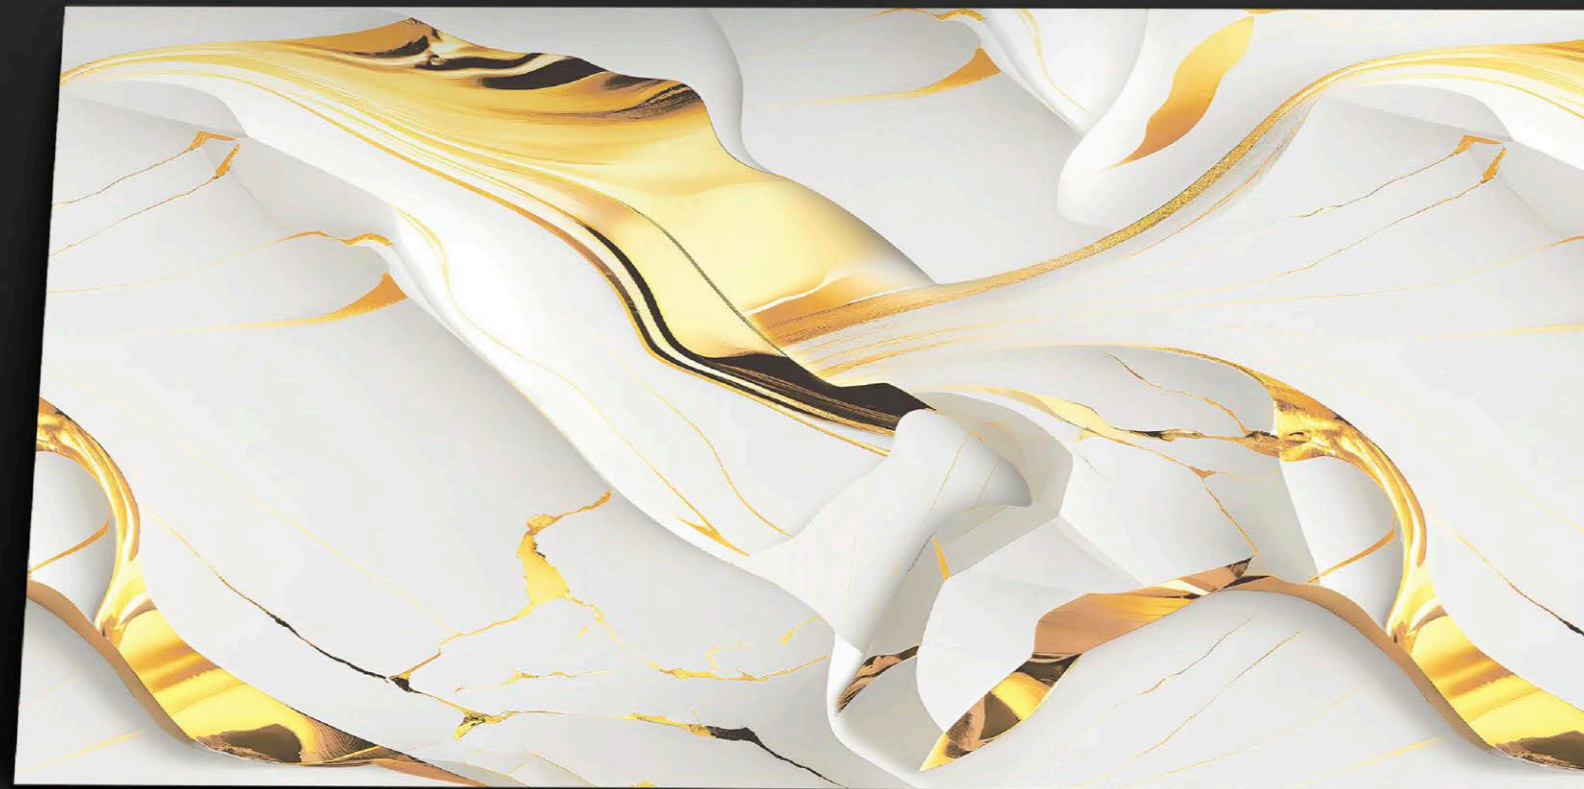

The premium finishes are a result of incessant research and development to offer luxury and functionality in equal measures. The Lush finish is an experience in itself - with a matt feel and glowing ambiance melding the aesthetics of the glossy surface and the practicality of the matt surface in one.

The Lush Plus finish is the essence of class and perfection with the artisanal luxury of carving details glowing and striking in the Lush surface taking surface experience to another level and setting a benchmark in the ceramic industry altogether. Both exclusive finishes are available in magnificent and 600x1200mm size slabs.

## Floor and Wall Installation

1. First spread the cement mixer onto the floor and wall substrate.
2. At the same time, apply the cement mixer onto the back of the slab with a tile trowel.
3. The recommended cement mixer must be spread over in one direction only.
4. Using a trowel and follow the same direction as previously applied to the back of the slab.
5. Being careful to maintain a minimum joint of 3mm.
6. Tap the slab with a rubber trowel for a complete fixing, ensuring the air is expelled. It is recommended to start from the centre of the slabs and then move towards the edges.
7. Complete the laying operations using a suitable sealant, while keeping at least a 3mm joint through the use of spacers.
8. To make this task easier, use the special device for pulling over the slabs, available in the market.
9. Levelling wedges at each linear metre of the slabs are recommended.
10. After levelling process leave it for 8-10 hours, remove wedges once it gets dry.
